

Name	: Osama Ahmed Shawki,M.D.
Date of Birth	: 26 November , 1958
Place of birth	: Cairo
Address	: 10 Aboul Magd Amer street, Heliopolis, Cairo
Telephone	: 20100 6666022 , 00201001410060
	: <u>Osamashawki@yahoo.com</u>
	: <u>ilovehysteroscopy@yahoo.com</u>
Nationality	: Egypt
Social status	: Maried and has 2 children

- MB, B.Ch with degree of Excellence
Cairo University , School of Medicine - December 1982
- M . S Ob. & Gyn. Cairo University , School of Medicine - May 1987
- M.D Ob.&Gyn. Cairo University , School of Medicine - May 1994

Training

Resident in department of Obstetrics and Gynecology , Kasr El Einy Hospital ,
Cairo University 1984 – 1987.

Visiting resident in Port Royal hospital , Paris 1989.

Professor Kasr El Einy Hospital, Cairo University.

Present position

Professor , Department of Obstetrics and Gynecology , Cairo University
Kasr El Einy Hospital

Head of Gynecology unit in Cairo university, kasr Ainy hiospital

Faculty professor Giessen school for endoscopic surgery

Director of Al Ebtesama centre for infertility and Endoscopic surgery.

Director of Hysteroscopy Academy for research and Training (HART)

Editor European journal for GYN surgery

Attachment and membership in International Societies

- ◆ Elect Active Member American Society For Reproductive Medicine (**ASRM**)
- ◆ Elect Active Member American Society for Reproductive Surgeons (**SRS**)
- ◆ Elect Active Member European Society For Gynecologic Endoscopy (**ESGE**)
- ◆ Referee Coordinator and Representative to European Society For Endoscopy
- ◆ Board Member of International Society For Gynecologic Endoscopy (**ISGE**)
- ◆ Advisory board member for ISGE
- ◆ Elect Member American Association For Gynecologic Laparoscopists (**AAGL**)
- ◆ Member in the society for laparoendoscopic surgery, USA
- ◆ Member of British Society for Gynecologic Endoscopy (**BSGE**)

- ◆ Elect member of German Society for Endoscopic surgery
- ◆ Middle East fertility Society (MEFS)
- ◆ Member editorial board of Gynecologic Surgery Journal

Invented and Designed several instruments in the field of operative endoscopy

Heager company , Germany

Inventor of the Shawki hystero Jet for fluid distension in intrauterine surgery

Inventor of full Shawki integrated system for Hysteroscopy

Shawki Gynoscope office Hysteroscopy system

Shawki mini Resectoscope, An innovative Bipolar system

Shawki Resction expert Resectoscope

Karl Sotrz endoscopy

Germany

- The Multifunctional Cutting Coagulation Forceps used in Endoscopic surgery
(KARL Storz - 30421 SH) , Germany.
- Patency right for design of the Shawki's Ball-Electrode probe for ovarian drilling
(Rocket Medical)
- Patency right for roller bar electrode for laparoscopic surgery
(STORZ KST - 1071)
- **The Hysteroshield** , an intrauterine device for prevention of intrauterine adhesions after metroplasty and reconstructive uterine surgery. *(Conteck device , India).*
- Danazole loaded IUD for management of adenomyosis , *Japan.*
- Hydrothermal inflatable balloon for endometrial ablation *(Cook's , USA)*

International scientific activities

❖ .

Active participant and presented one oral presentation and one poster.
Prize Paper Award Nomination by Society For Reproductive Surgeons

- ❖ 5 TH World Congress On Endometriosis Yokohama city
Japan,18-21 October 1996
 Winner of Young Scientist Grant from congress scientific committee..
 Active participant and presented one oral presentation and one poster.
- ❖ Chairman of New Technology session in ISGE congress , Singapore.
- ❖ Published two chapters in international textbook titled;
 Transvaginal sonography for Infertility
 Editor Gautam Allahbadia

- ❖ Published a chapter in Textbook titled Laparoscopic surgery in Infertility
 Editor , Durh Shah .
 - Published chapter in Ultrasound and Infertility , published by Gautam Allahbadia
 - Invited guest speaker in ISGE meeting bangkok 2003.
 - Invited guest speaker in MEFS congress , lebanon 2003
 - Invited guest speaker in ISGE , Kuala Lumpore April 2004.
 - Invited speaker in controversial congress , las Vegas June 2004
 - Invited speaker in world congress on menopause, Bueonos Aires 2005
 - Conducted workshops upon hysteroscopy and minimum invasive therapy in gynecology in the following countries;
 - Dubai, Kuwait, Oman, qatar, Syria, Lebanon, Tunisia, Russia, Germany, kazakhstan, Spain, Pakisytan, India,USA, Russia, Uzbekstan, Kazakhestan, Argentina, Brazil, Australia

Dear Dr. Shawki:

Congratulations on your prize winning paper at the American Society for Reproductive Medicine. You have made a significant contribution to the care of infertile patients and to the basic physiology of the fallopian tube.

I thoroughly enjoyed your excellent presentation at the Vth World Congress of Endometriosis in Yokohama, Japan and the opportunity to converse with you in Osaka, Japan after the meeting.

With very warmest personal regards. I am yours.

Sincerely,

Ronald E. Batt, M.D.
Professor of Clinical Gynecology

Your paper, "Hysterosalpingoscintigraphic (HSS) Evaluation of Fallopian Tubes Patency and Physiology in Normal and Patients with Unexplained Infertility", has been selected for presentation at the 52nd annual meeting of the American Society for Reproductive Medicine. Additionally, your abstract is one of four that will be considered for The Society of Reproductive Surgeons Prize Paper Award. The prize paper will be presented in a Plenary Session on Monday, November 4, 1996.

The SHAWKI Cutting-Coagulation Forceps

It's Four-in-One:

It's cost-effective,

It's simple to use,

It saves time,

It combines cutting, coagulating and grasping functions.

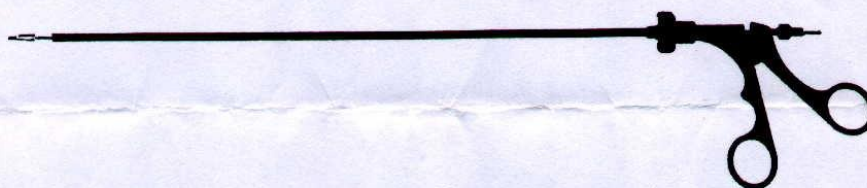

The SHAWKI Cutting-Coagulation Forceps from KARL STORZ is a true multi-purpose instrument that minimizes instrument change. The major benefit of this instrument is to reduce both surgical time and the number of instruments utilized during a procedure.

The jaws' coagulating surfaces are serrated for secure grasping and dissection. The fine tip allows perfect dissection in narrow spaces. The use of unipolar energy for safely and efficiently coagulating vessels may result in eliminating costly stapling devices.

The instrument design allows for both coagulating and cutting to be performed simultaneously without the need for changing the instrument.

Special Features:

- Reduces operating time.
- Eliminates costly stapling devices.
- One insertion – one instrument – multiple functions.

30421 SH **Take-apart™ SHAWKI Cutting-Coagulation Forceps**,
size 5 mm, length 36 cm, consisting of:
30531 **Handle**
30530 **Outer Tube**
30420 SH **SHAWKI Insert**

31421 SH **Take-apart™ SHAWKI Cutting-Coagulation Forceps**,
size 5 mm, length 43 cm, consisting of:
30531 **Handle**
31530 **Outer Tube**
31420 SH **SHAWKI Insert**
